eZ wins the Red Herring 100

By Bertrand Maugain

Earlier eZ Systems announced it has been selected as a finalist for Red Herring's Global 100 award. 2 weeks ago eZ was announced as winner.

To be selected as a Red Herring 100 winner is a mark of distinction and high honor. Only 200 companies are chosen as finalists out of a pool of thousands.

Of those finalists Red Herring selected 100 companies as winners. To decide on these companies the Red Herring editorial team diligently surveys entrepreneurship around the globe. Technology industry executives, investors, and observers regard the Red Herring 100 lists as invaluable instruments to discover and advocate the promising startups that will lead the next wave of disruption and innovation.

Past award winners include Google, Yahoo!, Skype, Netscape, Salesforce.com, and YouTube.

LIVE stream recorded from the Winter Conference

If you did not make it to the Winter Conference this time, but would like to get a taste of what happened there, you just have to find a nice couch, sit back and relax: it's on TV, recorded from the actual event in late January.

Thanks to the brilliant UStream online live video streaming service, you could access the full Community Day (thursday, jan. 21st) online as it took place. The talks, the barcamp, and the discussions are broadcasted specially for those who were too far to step by or would like to see it again.

To access the recorded material, please visit our ustream site:

eZ Systems joins Open Source Days 2010 in

eZ Systems is exhibiting at Open Source Days 2010 5th & 6th march at the IT University in Copenhagen. We will also be joining the CMS track on Friday the 5th, where an eZ Partner will be showcasing an **eZ Publish** solution.

Open Source Days is the largest open source conference in the Nordic area with more than 2.500 visitors last year. It's your opportunity to meet, share, and learn from professional open source experts.

For more info and registration: <http://opensourcedays.org/2010/>

Open Source conference in Copenhagen

IT-University of Copenhagen, 5. & 6. March 2010

News

30. Jan. 2010
More speakers added to the program:

- Jochen Maer - Django: A Nagler frontend
- Peter Aagaard Kristensen - My first Android port
- Thorbjörn Fritzon - On Semantics - The Role of Meaning and Intention in Software Systems

Schedule for [Friday 5th March](#)

25. Jan. 2010
Nokia Open 2010 will take over after Open Source Days on Friday 5th March. Open source Maemo stuff, beers, food, stand-up. [Join in and have fun](#)

Open Source Days

Open Source Days is the **largest open source conference** in the Nordic area. It's your opportunity to **meet, share, and learn** from professional open source experts.

Open Source Days has made several great alliances over the years. Friday March 5th a **CMS track** is organized together with DrupalDK, a whole day about using **Open Office in the public sector** is organized together with OSL.dk, and a **Perl workshop** during March 6th is organized with the PerlMongers users group. The friday night party is a collaboration with the developer competition **Nokia Open 2010**.

These interesting contributions are part of the conference, and open to all attendees.

You have the opportunity to meet many companies both working with and providing the foremost open source solutions for your business. **Improve productivity** and get cost effective solutions at Open Source Days 2010.

Flying start with eZ Publish downloads in 2010

During the first weeks of 2010 eZ Systems shows strength in their online marketing focus with 3 million downloads of eZ Publish and PageRank 9 for ez.no.

The download-activity on the web regarding eZ Publish and additional products has increased at a high rate over the last few years, and with the recent launch of share.ez.no, eZ hopes of an even more aggressive increase in popularity and downloads in the near future.

Google also values the importance of ez.no with a PageRank 9 out of 10, defining how important the site is on the web

Webmaster Thomas Øverbø comments: "The 3 million downloads mark is a result of continuous work at developing better products, and focus on more visibility and accessibility for our users. This has also given us a significant increase in our sales activities and revenue. When Google also rewards us with a pagerank of 9, it shows that we get a higher amount of quality links back to ez.no and that is something we aim for constantly."

The screenshot displays the eZ Publish download page. On the left, there are two main sections: 'PRODUCTION' and 'EVALUATION'. Under 'PRODUCTION', there are three options: 'eZ Publish full install', 'eZ Publish lightweight package', and 'eZ Find, eZ Flow and other extensions'. Under 'EVALUATION', there is one option: 'eZ Publish evaluation (classic)'. The main content area features the 'eZ Publish full installation' header with version 4.2.0 (September 29, 2009). Below this, a paragraph describes the full install, followed by a list of links: 'List of the extensions included in eZ Publish', 'More information on eZ Flow', 'Release notes', and 'System requirements'. To the right, there is a 'Download' button for a zip file (24,39 Mb) and a section for 'alternate downloads' with links for tar.gz, zip (without eZ Components), and tar.gz (without eZ Components). A white overlay box in the foreground displays the following information:

Web Page URL: <http://ez.no>

The Page Rank:  9/10

(the page rank value is 9 from 10 possible points)
